ADDITIONAL INFORMATION

The Capital Improvement Fund (“CIF”) has been established in the treasury of the State of Kansas to assist school districts with making principal and interest payments on voted general obligation bond issues. The amount of CIF funding each school district receives is based on a formula prescribed by statute and implemented by the State Board of Education (“Bond State Aid”). Based on the current formula, the District expects to receive Bond State Aid in the approximate amount set forth below to assist with making the principal and interest payments on the Bonds. No assurance can be given that Bond State Aid will continue at this or any amount in future years.

The following additional information is provided by the District with respect to compliance with the provisions of K.S.A. 10-120a and K.S.A. 12-6,122. This information has been obtained from sources deemed reliable by the District. Certain portions of this information are based upon projections. No assurances can be given that these projections will be accurate as of the date of issuance of the Bonds due to changing market conditions, any changes in assessed valuation of the District, changes in the amount of state financial aid received by the District and other matters unknown or unavailable at this time. The projected rates of property taxation to be used to pay the principal of and interest on the Bonds are based upon the current assessed valuation of the District, the assumed principal repayment schedule and the average interest rates from recent bond issues for similar types of financings and the current level of Bond State Aid the District would receive with respect to the Bonds, all as shown below.
